At the ripe age of 79 years, John

MacDonald, of Westville, Nova Sco-

tia, has quit coal mining and plans

on retiring for the rest of his days.

He started mining at the age of 11

years, and has held every position in

the mine, including that of manager.

Sixty-eight years at mining is some

record.

TEXT OF WARNING TO ITALIANS

The text of a message from the President of the United States and the Prime Minister of Great Britain to the people of Italy on July 16:

At this moment the combined armed forces of the United States and Great Britain under the command of General Eisenhower and his deputy, General Alexander, are carrying the war deep into the territory of your country.

This is the direct consequences of the shameful leadership to which you have been subjected by Mussolini and his Fascist Regime.

Mussolini carried you into this war as the satellite of a brutal destroyer of peoples and liberties.

Mussolini plunged you into this war which he thought Hitler had already won. In spite of Italy's great vulnerability to attack by air and sea, your Fascist leaders sent your sons, your ships, your air force, to distant battlefields to aid Germany in her attempt to conquer England, Russia and the world.

This association with the designs of Nazi-controlled Germany was unworthy of Italy's ancient traditions of freedom and culture—traditions to which the peoples of America and Great Britain owe so much.

Your soldiers have fought not in the interests of Italy but for Nazi Germany. They have fought courageously, but they have been betrayed and abandoned by the Germans on the Russian Front and on every battlefield in Africa from El Alamein to Cape Bon.

Today, Germany's hopes for world conquest have been blasted on all fronts. The skies over Italy are dominated by the vast air armadas of the United States and Great Britain. Italy's sea coasts are threatened by the greatest accumulation of British and Allied sea power ever concentrated in the Mediterranean.

The forces now opposed to you are pledged to destroy the power of Nazi Germany—power which has ruthlessly been used to inflict slavery, destruction and death on all those who refuse to recognize the Germans as the master race.

The sole hope for Italy's survival lies in honorable capitulation to the overwhelming power of the military forces of the United Nations. If you continue to tolerate the Fascist Regime which serves the evil power of the Nazis, you must suffer the consequences of your own choice. We take no satisfaction in invading Italian soil and bringing the tragic devastation of war home to the Italian people; but we are determined to destroy the false leaders and their doctrines which have brought Italy to her present position.

Every moment that you resist the combined forces of the United Nations—every drop of blood that you sacrifice—can serve only one purpose: to give the Fascist and Nazi leaders a little more time to escape from the inevitable consequences of their own crimes.

All your interests and all your traditions have been betrayed by Nazi Germany and your own false and corrupt leaders; it is only by disavowing both that a reconstituted Italy can hope to occupy a respected place in the family of European nations.

The time has now come for you, the Italian people, to consult your own self-respect and your own interest and your own desire for a restoration of national dignity, security and peace. The time has come for you to decide whether Italians shall die for Mussolini and Hitler—or live for Italy, and for civilization.

Not one British warship has been sunk by any Italian surface vessel during the two and a half years since Italy entered the war. It is calculated that by March, 1943, the Italian fleet had lost 10 cruisers, 48 destroyers and a large number of submarines.

RMS LADY NELSON

RMS Lady Nelson, once the proud flagship of the Canada—West Indies fleet, is now a hospital ship, known simply as Canadian Army Ship No. 44. She made her first Atlantic crossing in May, bringing Canadiana from Britain, some of them Dieppe veterans, and Americans from North Africa. In the picture CBC's commentator, Joan Marshall, is talking with Captain George W. Welch, first officer to command a Canadian hospital ship in this war. Miss Marshall described her visit aboard the Lady Nelson in a recent CBC Canadian Round-Up programme.

NATIONAL SELECTIVE SERVICE

Fourth Compulsory Employment Transfer Order

A Direction to Specified Employers and Employees

This Order applies to any young man who is 16, 17 or 18 years of age, and who is working at any one of the employments specified in this notice. It is also directed to the present employers of these young men.

A. Objective:

The Order provides for the transfer of the young men affected, to work which is of more importance to Canada's war effort. Transfers will be made after taking into account the health and domestic circumstances of these young men.

B. YOUNG MEN WHO ARE AFFECTED:

Every young man who is in any one of the employments specified, who has reached his 16th birthday but has not reached his 19th birthday, is covered by this Order.

C. EMPLOYMENTS SPECIFIED IN THE ORDER:

This Order applies to the young men described above if now employed in any of these occupations:

(1) Any occupation in or associated with the following: (a) barber shops and beauty parlours; (b) distilling alcohol for beverage; (c) drying, cleaning and pressing, bath, guide service, shoe shining; (d) entertainments including but not restricted to theatres, film agencies, motion picture companies, clubs, bowling alleys, pool rooms; (e) operation of ice cream parlours and soda fountains; (f) manufacture of feathers, plumes and artificial flowers, chewing gum, wine, beer goods, greeting cards, jewelry; (g) retail stores; (h) factory production of statuary and art goods; (i) retail and wholesale florists; (j) retail sale of confectionery, candy, tobacco, books, stationery, news; (k) retail sale of motor vehicles or accessories; (l) retail sale of sporting goods or musical instruments; (m) service stations (gasoline-filling stations); (n) taverns, liquor, wine and beer stores.

(2) Bus boy; charman and cleaner; custom furrier; dancing teacher; dish washer; domestic servant; doorman and starter; elevator operator; greens keeper; grounds keeper; hotel bell boy; porter (other than in railway train service); private chauffeur; taxi driver; waiter.

D. How the Order affects Young Men still attending School:

Young men in the age groups mentioned, now employed, will not be interfered with insofar as returning to school at the opening of the school session in the Autumn is concerned; but young men in the age classes covered, who are now working during their summer vacation, must comply with this Compulsory Order.

E. Procedure to be followed:

All men as defined above must report to an Employment and Selective Service Office not later than July 24th, 1943. Men resident outside a city or town having an Employment and Selective Service Office, who are too far removed to call personally at such an Office, may write to the nearest office in the first instance, and await further directions.

F. Appeals:

If directed to transfer to employment subsequent to interview, a man may, if he objects, enter appeal with a Court of Referees, within 7 days of receiving such direction.

G. Penalties:

Penalties are provided for employers who retain, or take into their employ, after July 24th, 1943, any man covered by this Order except under special permit. Also, penalties are provided for failure of an employer covered by the Order, to register or follow a subsequent direction to employment.

H. Authority:

This Order is issued under authority conferred on the Minister of Labour by National Selective Service Civilian Regulation (P.C. 246 of January 19th, 1943, and amending Orders in Council).

Employers or employees uncertain of the application of this Order in a particular case are advised to communicate immediately with the nearest Employment and Selective Service Office.

Attention is directed to the fact that the Third Compulsory Order, which contains a list of occupations different from the above, also requires certain young men 16, 17 and 18 years of age to report to National Selective Service.

DEPARTMENT OF LABOUR

Minister of Labour

Director, National Selective Service

A. MACNAB, DT-4

NEW AGENT TAKES OVER

Mr. W. L. Taylor, of Coleman, recently appointed to succeed Mr. G. A. Passmore as CPE agent at Blaimore, took over on Wednesday of this week.

In turn he is succeeded at Coleman by Mr. W. T. Pettifor, of Castor.

Mr. Charlie Totten, who had been looking after affairs at the local depot for the past few weeks, returned to his post in Lethbridge immediately Mr. Taylor took over.

"V"

COWLEY HAPPENINGS

Mr. and Mrs. Bert Connelly, of Lundbreck, were Saturday visitors to Pincher Creek.

Mr. and Mrs. Ralph Veitch were visitors to Pincher Creek on Thursday.

Cowley was well represented at the Castle River Stampede on Wednesday. Most everyone and his dog went.

Bill Robinson is an inmate in St. Vincent's hospital at Pincher Creek. He had the misfortune to have a mixup with horses and machinery while working in the fields, breaking an arm and sustaining other minor injuries.

Sandy Leslie, old time rancher here and judge of fine stock, is a business visitor to Milk River and may possibly locate there.

Mr. and Mrs. Alvin Murphy are rejoicing over the birth of a son in St. Vincent's hospital on Sunday last. Mrs. Peachy, of Willow Valley, has returned home from hospital with her infant daughter, Sharon Mary.

Mr. and Mrs. Burkhardt, of Twin Butte, were recent visitors to Cowley. Mr. Burkhardt continued on to visit friends in Willow Valley district.

Mrs. Ed. Grove and son Barry, of Lundbreck, have returned from a week's visit with Mr. and Mrs. Robert Day.

Bobby Betts underwent a tonsil operation at Pincher Creek on Monday.

A pretty wedding was solemnized at the home of Mr. and Mrs. George Porter on Monday, July 19th, when their daughter Jean became the bride of Mr. Eric Thomas Alcock, son of Mr. and Mrs. W. J. Alcock, of Macleod. Rev. Robert Axon officiated. Immediate family members were present when the bride, who was given in marriage by her father, took her place beside the groom to the strains of the wedding march played by Miss Connie Porter, the bride's sister.

The bride was charming in an afternoon dress of rose crepe with white accessories, and wearing a corsage of carnations and larkspur. Miss Lillian Porter, sister, was bridesmaid. She wore a gown of blue crepe with white accessories and carried a corsage of red carnations. Mr. William Blendon, of Macleod, supported the groom. After a honeymoon spent at Calgary and Banff, the happy couple will take up residence on a farm south of Macleod.

"V"

Wallace Bardock, of Bellevue, has enlisted in the RCAF.

The old Mar Jan Oil Co. property near Pincher Creek is to be the scene of drilling operations shortly.

To date at Pincher Creek \$910 worth of stamps have been sold to buy depth charges for the corvette Blaimore.

Captain Padre N. W. Whitmore, formerly of Pincher Creek and now stationed at Camrose, has recently been promoted to the rank of major.

A large party of fishermen from Lethbridge spent last night in Blaimore and headed up the North Fork this morning. They carried 1,900 measuring tapes ranging in length from ten inches to ten yards.

Ben Hobson and family are holidaying in the Okanagan, visiting son Archie in military service at Vernon. Tony Pech, who has received his discharge from army service after seven months on the west coast, is relieving Benny.

FRIDAY, JULY 23, 1943

\$2.00 PER ANNUM

Monday, the golf club was the most popular place in the Pass. Commencing at 10 a.m. the men played the final round for possession of the Charbonnier cup. This event was won by W. Turner.

In the afternoon, the clubhouse was filled to overflowing. One of the best tournaments in years was on hand to take part in the mixed two-ball foursomes, hidden hole and tombstone competitions. Winners of these events were as follows: Mixed two-ball foursomes, ladies' low gross, Mrs. Turner; gent's low gross, Wm. Turner; ladies' low net, Mrs. Ann Jaffe; gent's low net, Wm. Kerr. Hidden hole, Mrs. Grainger and R. Shaw. Tombstone, A. Bourne.

During the afternoon the ladies of the club served a lovely lunch to the tired golfers and several visitors. Members of the club are looking forward to the next competition in August.

REHABILITATION A REAL ISSUE

"Rehabilitation of Canada's Fighting Men" is the caption of a 35-page brief submitted to the House of Commons by July 2nd of this year by the Canadian Legion. The brief deals clearly and extensively with Post-War Reconstruction and Re-establishment. The booklet is distributed free of charge to the Armed Forces in Canada and Overseas, members of the Dominion Parliament and Provincial Legislatures, members of the Canadian Legion and The Press. Application for copies may be made to the General Secretary, Canadian Legion, 158 Sparks Street, Ottawa.

"V"

HILLCREST HAPPENINGS

Pte. J. Mihalik and wife are visiting with Mr. and Mrs. J. Seaman.

Sergt. W. Makin, of the army medical corps at Suffield, Alberta, is visiting with his family here.

Among the local girls to obtain positions at St. Michael's hospital, Lethbridge, were Helen and Mary Berze.

A number of friends gathered at the home of Mr. and Mrs. Colosimo a few nights ago to honor Mario, who was leaving to join the navy. A pleasant evening was spent.

Winifred Clarke is spending her summer vacation with her aunt at the Pacific coast.

Pilot officer Andrew and wife, of Lethbridge, are visiting with Mr. and Mrs. Ben Carter here.

R. Draper, school principal, was marking examination papers in Edmonton recently.

Miss Eleanor D'Amico is attending summer school in Calgary.

Helen Iawaski is spending her summer vacation at the home of her parents here.

L. Atkinson, of Nelson, is visiting his parents here.

Mr. and Mrs. L. Heusden and family, of Trail, B.C., are visiting with relatives here.

Charles Beigan and family, of Calgary, are renewing old acquaintances here.

Corpl. Adam Pollock is down from Calgary on a visit to his wife and family.

Oiga Terlecki was down from Calgary on a visit to her parents.

Mrs. Fred Balkwill and family left to take up residence in Vancouver.

Mary Lazarenko is spending her summer vacation in Calgary.

"V"

Miss Audrey Halliwell, of Macleod, has been visiting with friends in Bellevue.

From the forest commission's forests in Norfolk and Suffolk, England, 15,370,000 lineal feet of pitwood, 755,000 cubic feet of conifers, 246,000 cubic feet of hardwood and 6,000,000 lineal feet of timber for army, air force and agricultural requirements have been produced since the outbreak of war.

GROWN IN SUNNY, SOUTHERN ONTARIO

Agriculture And The War

AGRICULTURE IS THE MOST IMPORTANT single industry in Canada and at this season of the year the attention of a large part of our population is engaged in the many branches of farm activities. There is a saying that "an army marches on its stomach," and there is no doubt of the great importance of food production in war time, both for the fighting forces and for the vast army of workers who supply them with the implements of war. The products of Canadian agriculture have provided not only for our domestic needs, but have played an important part in keeping Britain supplied with essential foodstuffs. In the United Kingdom, the war brought many acute problems connected with food supply, and Canada has been able to do much to assist in this way. Difficulties in keeping of some foods, and also the limitation of shipping space, has led to the development by Canadian scientists of new methods of dehydration and concentration of many essential foodstuffs, and today many of our products are being shipped overseas in these forms.

Food Contracts For This Year

Under 1942-43 contracts, this country has undertaken to supply Great Britain with large quantities of Canadian farm products. The contracts for this period include 125,000,000 pounds of cheese; 32,064,000 one-pound tins of evaporated milk, and 675,000,000 pounds of bacon. In addition, Canada will endeavour to send to the United Kingdom 9,000 tons of dried eggs. This amount is equivalent to about 61,000,000 dozens. We are told that in 1942, 65% of our entire cheese output was shipped to Great Britain, as was 15% of our egg production. In that period also, 75% of the inspected hogs slaughtered in Canada were sent to the British Isles. This represented 25% of Canada's entire meat supply for the year. It is interesting to note in this connection that one week's shipment of bacon and pork products at the present time, is equal to the yearly amount exported ten years ago. The entire catch of salmon and herring made here in 1942 was also sent to Britain.

Canadian Wheat Sent Overseas

In addition to these large shipments of meat, eggs, fish and dairy products, there was also sent vast quantities of Canadian fruits, vegetables, cereals and honey. Honey from Western Canada has been an important item in the war effort. The farms of Western Canada has also gone to supply all deficiencies in the supply of wheat and flour in Britain. The 1942 wheat crop of 608,000,000 bushels which was the largest ever produced in the Dominion, has helped not only to supply Britain, but has also made it possible for the Canadian government to send 15,000 tons of wheat each month to the famine-stricken people of Greece. From all these facts it is evident that Canadian agriculture is performing outstanding service in the cause of the United Nations and that through its contributions vast numbers of fighting men and munition workers are maintained. In the critical months immediately ahead, and in the post-war period there will be need of the continued effort and support which is supplied by those engaged in agriculture in this country.

WARTIME CANNING

This year our fruit canning will vary from pre-war days. Previously if one or two jars of fruit had to be thrown out it didn't matter, but now all fruit canned must be properly sterilized so it will keep. It is vitally urgent to prevent wastage.

The government has given us several important points this year as an aid in our canning:

- (1) Do not use the open kettle method for canning fruits. This requires more sugar than the hot or cold pack methods, because we counted on the sugar to help keep the fruit. There is a much greater chance for re-contamination as everything is exposed to the air after being sterilized.
- (2) The black wartime rubber rings will make a perfect seal. They should be dipped in boiling water, left in it at least a minute, then removed. The rings should never be pulled out to test their elasticity, as they won't go back to original shape nor should they be used a second time. Once a jar is cold do not try to turn the screw tops further as this breaks the seal and will cause spoilage.
- (3) Make less jams and jellies—they require twice the amount of sugar.
- (4) It is possible to can without sugar, depending entirely on sterilization for keeping the fruit. The sterilization time should be five minutes longer when no sugar is used. You can tomatoes without sugar with complete safety; the same applies to fruit. If you use sugar make a thin syrup by using 2 cups water—1 cup sugar.

Preservatives should not be necessary when you use the proper method for sterilization.

The Pure Food Act in Canada forbids the use of a preservative in commercially canned fruits.

Send to the Western Division Health League of Canada, 111 Avenue Road, Toronto, for pamphlet on Wartime Canning and our Authoritative Vitamin Chart.

HOLIDAYS AT HOME

The London (England) County Council is making extensive use of posters to advertise its plans for holidays at home to save transport. Plans to entertain the public who "stay at home" are extensive, and include special entertainments in the parks, evening and lunch-time band concerts, concert parties, dancing, special children's entertainments, amateur boxing tournaments, a circus, fairs, swimming galas and athletic sports, bowls and allotments competitions.

C. J. Widdowson, Foxwarren, Man.

To Conserve Labor

Amendment Made That Canada Will Discontinue Production Of Antimony

To conserve essential labor, it has decided to discontinue production of antimony in Canada. It was disclosed in Canadian War Orders and Regulations.

The booklet contained an order exempting imports of antimony from the 10 per cent. war exchange tax and three per cent. special excise tax, because production at home was being stopped.

Antimony is used in a number of alloys, chiefly with lead, and finds its way into many war materials. Canada's needs will have to be met by imports once existing stocks are depleted.

There are now five trade unions on the Gold Coast, four of which are transport unions; the fifth is the Post Office Technical Workers' Union. All have the same constitution and the method of government of the model Trade Union Congress Rules.

Pilot Officer "Bob" Fritz

—R.C.A.F. Photo.

Pilot Officer R. E. "Bob" Fritz, outstanding football star wears a happy grin. And no wonder. With 52 flying hours to his credit at No. 23 Elementary Flying Training School, Davidson, Sask., he's heading the right direction toward sprouting a pair of pilot's wings. A former Auxiliary services officer at No. 2 Training Command, R.C.A.F., Winnipeg, Pilot Officer Fritz remastered to alrenew last spring.

Tabbed by Western sports writers as one of the best plugging half-backs in Western Canada, Pilot Officer R. E. "Bob" Fritz, erstwhile Winnipeg Blue Bomber coach and football player, is well on his way to sprouting pilot's wings. Fritz is piling up the hours these days in his elementary trainer. He got off to a good start by soloing on June 10 after nine hours and 15 minutes of dual instruction.

"My training so far, has inculcated in me a sincere and all-encompassing respect and admiration for the boys with their wings up," observed the husky footballer in an interview.

A former Auxiliary services officer at No. 2 Training Command, R.C.A.F., Winnipeg, chiefly concerned with service sporting activities, Pilot Officer Fritz started his alrenew training this spring. Fritz had a great competitive spirit in sports and was respected right across the country by crack sports writers. He was picked for the Canadian Press All-Star team in 1937. His football

Much More Expensive

Whirligig Of Old School Days Is Now A Helicopter

Harking back to the days of simpler joys, do you remember what we used to call a whirligig? It was a plank set upon a stump in such a way that the boys and girls could ride on the circumference while another playmate in the middle made the affair go round and round. Like the swing it was cheap and it provided a lot of fun in the moments between picking the potato bugs, hoeing the garden and gathering the eggs.

The "hovering whirligig" isn't nearly so innocent nor so inexpensive. It is, in truth, a helicopter, but the R.C.A.F. boys have tagged it with the whirligig name. It's a plane with a set of windmill wings above the fuselage, wings which, when set in motion, can lift the plane almost straight up off the ground, or set it straight down, can make it hover or go back or ahead slowly. It was formerly thought to be a freak, but within the past few months it has been built in real earnest.

Now the Royal Canadian Air Force has ordered six and is trying them out. If we knew the truth it is quite possible that the so-called small aircraft carriers being used to combat the U-boat in the Atlantic may be equipped with helicopters. At any rate those who have witnessed the tests are quite sure that the meandering whirligigs will be sure death for lurking U-boats because they will be able to spot them and hover over them in a way no ordinary plane can.—Lethbridge Herald.

PROVES SOMETHING

Californians presumably have the most polished teeth in the United States. At least California ranks as No. 1 State in the national tooth paste tubes campaign. The state has turned in 39,832 pounds of tooth paste tubes or 10 per cent. of the national total of 395,832 pounds.

NO BALLYHOO

We still prefer newspapers. They don't trick you into reading an advertisement by starting off with a song.—Victoria Times.

BUNNY HUG

Kellogg's CORN FLAKES
"They're everybody's favourite in our house," he says. "I have a dish anytime I'm hungry." Kellogg's Corn Flakes are ready to eat in 30 seconds, leave no pots and pans to wash up after. They're easy to digest and economical, too. Better get some tomorrow. Two convenient sizes. Made by Kellogg's in London, Canada.

SAVE TIME - SAVE FUEL - SAVE WORK!

SMILE AWHILE

The hostess was trying to persuade one of her guests to contribute a song.
"I'm very sorry," the guest replied, "but I'm afraid most of my vocal efforts are confined to singing in my bath."

"Well, I'll tell you what I'll do," said the hostess. "I'll put you down for a song and I'll mention the fact that you're out of practice."

Reporter—To what do you attribute your old age?
Centenarian—For the first 70 years of my life the motor car was not invented, and for the last 30 years I have not been out on the streets.

"When a man on the home team strikes out he strikes out. It can be stated in plain English."
"Well?"

"But when he makes a base hit he warts a daisy bingle over left garden for an initial sacrifice."

First Nurse—Did you enjoy your ride last night with the doctor?
Second Nurse—Yes. He has such a wonderful roadside manner.

"Do you smile at your troubles as I advised you?"
Yeah, and the boss warned me three times to wipe that silly grin off my face and get to work."

"Do you know the nature of an oath?" the woman was asked when she entered the witness box.
"I ought to," she replied. "I've just left my husband hanging pictures."

A Navy officer in the South Pacific was holding a pow-wow with a cannibal chief. "If you see American soldiers come down from the sky in parachutes," said the officer, "please don't eat them. They are here to protect you from the Japs."

The chief grunted assent, "No eat white man," he said, "too litter."

And then there was the precocious child who, when asked by his Sunday School teacher what a lie was, gave the following answer: "A lie is an abomination to the Lord, and an ever-present help in time of trouble."

Wife—"I'm convinced you only married me because my father left me all his money."

Husband—"Nonsense. I didn't care a darn who left you the money."

The weaker sex is often the stronger sex because of the weaker sex.

Film Star—I told the newspapers that what I wanted most was a little cottage with a husband and at least six children.

Friend—Goodness, what makes you say such silly things?

Star—The publicity department.

Fly Control Methods

Necessary Precautions To Be Taken To Keep Flies Out Of The Home

Do not throw dish water or scrub water near the house, or in the back yard. Nothing attracts flies more quickly. Sink a box with a hinged cover but no bottom in the ground, and pour waste water into this box to soak away. Keep the lid down and the flies out.

Screen the doors and windows of your house with mosquito netting. In the army refuse is burned or buried, and the same practice should be followed in civilian life, except of course where garbage is collected by the municipality.

Food, waste and milk supplies should be carefully protected from flies.

Wilson's Fly Pads properly distributed about the house in plates of water will attract and kill any flies that manage to get into the house despite the screens.

Tables, sink-boards, pantry shelves or any place where food is set—and where flies have crawled—should be cleaned with a scrubbing brush and soap or disinfectants. Adherence to these simple rules of hygiene will more than repay the thought and effort by safeguarding the nation's most precious asset, the health of our people.

AIRCRAFT PRODUCTION

The total structural weight of aircraft produced in Britain in 1942 was 50% more than in 1941, and contained about twice the weight of heavy and medium bombers, four times the number of large flying boats and a very substantial output of new types.

SENT WHERE NEEDED

Under new production methods to be used in equipping Britain's invasion armies, thousands of war factory girls are being transferred to a "floating force" to be rushed to the plant needing them, to boost production.

Since the war began the "small" man in Great Britain has contributed £2,150,000,000 (\$9,546,000,000) in savings, which has provided 20% of the Government's borrowing needs.

TWO BOOKS IN ONE BY ANN ADAM

Lunch box ideas and food saver techniques, compiled by Ann Adam, with the foreword by Dr. L. A. Pott, M.C., The Appleford

LUNCH BOX AND FOODSAVER BOOK

Tells how to get new variety and nourishment into your lunches. Describes practical new shortcuts—new tips on packing. Gives 128 different sandwich filling combinations.

Shows How to Save

Food and money by taking best care of your food. Gives recipes for transforming leftovers into delicious new dishes. Includes a full program and in the interests of national food conservation, this book is offered to you at a fraction of its cost. For your copy, postcard, and only the along with your name and address PLAINLY PRINTED.

Thousands Of Water Projects Now Completed

REGINA.—Water development projects completed in the three prairie provinces from the time F.P.R.A. was organized in 1935 up until the end of 1942 totalled 19,897, George Spence, director, said recently.

Of this total, 12,167 projects are in Saskatchewan; 5,678 in Manitoba, and 2,102 in Alberta. The projects include dugouts, stock-watering dams and irrigation schemes.

Mr. Spence said that 1,342 projects had been completed in 1942. Present plans call for additional projects to be finished this year in the three provinces.

During 1955, shortly after the F.P.R.A. was started, 33 projects were completed in the prairie provinces, 52 of these were in Saskatchewan, 19 in Manitoba and 12 in Alberta.

The following year, 1,740 were finished. Of this total 875 were in Saskatchewan, 543 in Manitoba and 325 in Alberta.

Figures released by Mr. Spence reveal that the greatest number of these projects were completed in 1939—a total of 5,440 in the three provinces. Saskatchewan again had the largest number, 2,576 compared with 2,086 completed in Manitoba and 478 in Alberta.

One Of Canada's Post-War Plans Is Being Started

VANCOUVER.—Rehabilitation is part of the war effort and has been started now in order to reduce as much as possible costly failures in such a program after the war, Dr. G. M. Weir, acting director of training for the federal government, said in a prepared address to a Vancouver service club.

He reviewed the data he has collected in a year of studying the problem throughout Canada, outlining the costs and tentative scope of the Dominion's post-war rehabilitation plans.

The costs, he said, "seem astronomical," but the most reliable estimates available were that such expenditures need be little more than half as costly as are essential war operations and that about one-half the present rate of taxation and borrowing would be adequate for the programs envisaged.

Dr. Weir predicted that a total of more than 600,000 discharged persons could be effectively provided for in the early post-war period if an orderly demobilization and retraining were instituted. They would be absorbed by provincial-planned enterprises (100,000), Veterans' Land Act (50,000), construction enterprises (150,000), vocational training (225,000), return to former positions (250,000).

Dr. Weir admitted the more than 600,000 civilians now engaged in essential war industry complicated the post-war training problem. While not entitled to benefits under orders-in-council covering the government's rehabilitation program, many of them would attend vocational schools and universities, using accommodation that might be badly needed for discharged persons.

He expressed the hope "most of these munitions workers and similar types of employees will return to their homes, to their husbands and children, to their schools, to their former jobs."

"After all," he added, "discharged people who risked their lives at \$1.50 a day are more entitled to post-war consideration than are those who assumed no such risks in jobs that paid three or four times as much."

Dr. Weir numbered the training centres available for service men and women after the war, and said that if industry provided for adequate training in plants or plant schools, "there should be sufficient physical accommodation available in Canada for this purpose for over 250,000 trainees annually, although shortages or congestion in certain centres may be temporarily unavoidable."

HALIFAX.—The world famous baritone, Lawrence Tibbett, said here servicemen are showing considerable taste in their music. Arriving in Halifax for a concert, Tibbett said that servicemen are shouting for such numbers as the prelude to Pagliacci.

Dependents' Board Of Trustee Committees Meet

Work of regional Dependents' Board of Trustee committees, located in 21 Canadian cities, was praised by Hon. J. L. Ralston, minister of national defence, when he addressed a meeting of committee chairmen and members of the national board at Ottawa. The chairman of the Board told the conference a total of \$734,000 has been distributed to dependents of servicemen in the fifteen months ending March 31, 1943. In the (top) view, mapped at a meeting in Ottawa are, left to right, Rupert G. Keeco, O.B.E., chairman of the Winnipeg committee; Lt.-Col. G. E. Currie, Deputy Minister of National Defence; and J. Pembroke, assistant to Col. Currie and chairman of the national board. Shown in the (lower) picture are, left to right, Robert Irving, vice-chairman of the Port Arthur-Fort William committee; A. W. Robinson, member of the Saskatoon committee; and G. A. Gillespie, chairman of the Peterboro committee.

AFTER THE WAR

British Laborite Says United States Will Have Largest Navy

LONDON.—The British House of Commons was told that the United States will be the world's foremost naval power after the war.

Opening a debate on the future of the British merchant marine, Laborite Emanuel Shinwell said: "We shall be supreme no longer. The ball has passed to the people of the United States."

Shinwell pointed out that Great Britain began the war with about 20,000,000 tons of shipping but would have no more than 9,000,000 tons after the war. On the other hand, he said, the United States entered the war with about 7,000,000 tons of shipping and would have between 15,000,000 and 30,000,000 tons after the war.

BILL APPROVED

Providing Creation Of National Council On Physical Fitness

OTTAWA.—The House of Commons social security committee considered and approved a draft proposal "to promote the physical fitness of the people of Canada."

The act is to be administered by Pension Minister Mackenzie. The bill provides for the creation of a "national council on physical fitness," the members of which will not be appointed by the governor-in-council. Only the national director will receive a salary, the other members receiving actual expenses incurred in the discharge of their duties.

A fund of \$225,000 is to be provided from which the council will make grants to provinces for the carrying out of promotion of physical fitness.

Dr. Weir predicted that a total of more than 600,000 discharged persons could be effectively provided for in the early post-war period if an orderly demobilization and retraining were instituted. They would be absorbed by provincial-planned enterprises (100,000), Veterans' Land Act (50,000), construction enterprises (150,000), vocational training (225,000), return to former positions (250,000).

Dr. Weir admitted the more than 600,000 civilians now engaged in essential war industry complicated the post-war training problem. While not entitled to benefits under orders-in-council covering the government's rehabilitation program, many of them would attend vocational schools and universities, using accommodation that might be badly needed for discharged persons.

He expressed the hope "most of these munitions workers and similar types of employees will return to their homes, to their husbands and children, to their schools, to their former jobs."

"After all," he added, "discharged people who risked their lives at \$1.50 a day are more entitled to post-war consideration than are those who assumed no such risks in jobs that paid three or four times as much."

Dr. Weir numbered the training centres available for service men and women after the war, and said that if industry provided for adequate training in plants or plant schools, "there should be sufficient physical accommodation available in Canada for this purpose for over 250,000 trainees annually, although shortages or congestion in certain centres may be temporarily unavoidable."

NEW TERMINAL

Canadian National Opens Its Modern Railway Station In Montreal

MONTREAL.—The new central terminal of Canadian National Railway, described by engineers as one of the world's most completely modern railway stations, was formally opened here by Transport Minister Michaud.

In a simple ceremony, Mr. Michaud cut a silver ribbon across the north plaza and Mayor Adhemar Raynault unlocked one of the central doors to open the terminal that was 14 years in building.

Mr. Michaud, Hon. Wilfrid Gagnon, of the C.N.R. board of directors, and R. C. Vaughan, chairman and president of the C.N.R., spoke briefly in the opening ceremonies.

Work on the terminal started in 1929, but was suspended shortly after completion of excavation work a victim of the depression. For seven years the huge hole in the heart of the city until the greatly increased traffic of war brought a rush to complete the project in its modified version.

FEWER RAID VICTIMS

LONDON.—Two hundred and one civilians were killed, or are missing and believed killed, in air raids on Britain during June, the ministry of home security announced. During May the number killed totalled 584.

EAGER FOR NEWS

MOSCOW.—The Soviet people are evincing great interest in the battle of Sicily. They stand in long queues in the streets to read what scant news is posted, the only source of which is the Soviet official news agency Tass, which offers brief items from London.

Way Was Paved By Commandos For Canadians

ALLIED HEADQUARTERS, North Africa.—Commando troops paved the way for the Canadian landing on the southeast tip of Sicily. It was learned here when two British officers returned to Africa from the embattled island. The landing was accomplished in the face of extremely light resistance.

The Commandos went in ahead of the Canadians with whom they had travelled from Britain protected by a naval force. A naval officer, Lt.-Cmdr. J. D. Fernald, who was aboard the headquarters ship on the way to Sicily, said the wind reached almost gale proportions, threatening to upset the whole operation but, fortunately, it subsided just before landing. Some landing craft shipped considerable water as they plunged through the surf.

One of the Commando units was to secure the west flank of the beaches where the Canadians were to land, another the east flank. The first Commandos made the shore without being attacked from the air and met only sporadic machine-gun fire from the beach defences.

"The first beach was taken, then the others," Fernald said. "Meanwhile, shore batteries were giving a certain amount of trouble but gradually they were silenced, the last one fairly late in the morning."

"Later I went ashore and everything looked extremely active. Tanks and amphibious vehicles were going in and all the Italians (natives) who were there seemed to be pleased to see everybody. They were polite and so were the prisoners who were happy and chatted in some mysterious way with the troops."

Fernald heard the Canadians fighting but did not see them in action because the troops were already inland and along the west coast of the southeast tip of the island.

The other officer, Capt. W. R. Sennell of the Royal Marines, related how the Commandos landed in moonlight, assisted by flares dropped by the R.A.F. The landing was not opposed and the Commandos scaled the limestone cliffs, cut wire strung along the sandy depression on the other side. One minefield was cleared away.

So accurate was the work of the navigator that they landed within 100 yards of the point they were supposed to reach, a beach near Punta Castellazzo. They cleared out an old customs house used as a strong point and soon made contact with the Canadians.

FOR NEEDY RUSSIANS

LONDON.—Britain is releasing \$12,000,000 worth of clothing for shipment to Russia to meet the pressing needs of its civilian population, the government announced. The government is contributing \$10,000,000 towards the cost.

NEW NAVY TANKER

WINDSOR, Ont.—The first all-steel welded auxiliary tanker built by the Canadian Bridge Engineering Company—H.M.C.S. Dundalk—sailed down the ways at nearby Ojibway shipyard amid the cheering of hundreds of workmen and guests.

Wins Second Award

Sgt. George Alfred Hickson, 28, of Kitchener, Ont., who won the Distinguished Conduct Medal in the Dieppe raid, has been awarded the Military Medal for his services in North Africa. He is the first Canadian soldier to win two battle decorations in this war. He is a member of the Royal Canadian Engineers.

SHORTAGE ACUTE

Doctors Badly Needed In Some Rural Areas Of Canada

OTTAWA.—Pension Minister Mackenzie said in the commons that unless the situation can be met otherwise it may be necessary to use compulsion in the movement of medical men to the areas where they are badly needed.

He was answering M. J. Coldwell, C.C.F. leader, who said conditions in some rural areas were "very terrible" because of the shortage of doctors.

In Australia compulsion had been imposed on doctors, who were given the rank of major in the forces, and similar action had been taken in the United Kingdom so they might be moved where they were needed.

Mr. Mackenzie said he understood similar compulsory action was about to be taken in the United States. "That may be the only remedy in Canada, unless we succeed in meeting the situation in another way," he added.

EXCHANGE PLANNED

OTTAWA.—Prime Minister Mackenzie King said in the House of Commons that a ship will make a second exchange trip to Japan this summer to bring home nationals of Canada, the United States and one Latin American country.

WILL BE USED

OTTAWA.—Arrangements are to be made to use in military hospitals in Canada those whose religious beliefs prevent them from bearing arms, Defence Minister Ralston said. Buy War Savings Stamps Regularly.

High Praise For Canada's Ship Building Effort

LONDON.—Canada's shipbuilding effort since the start of the war is described as "one of the most remarkable things in the history of the British Commonwealth" during a general debate in the House of Commons on wartime and post-war merchant shipping.

Sir Arthur Salter, joint parliamentary secretary to the ministry of war transport, said Canada now is building approximately the same tonnage of merchant ships as Great Britain, in addition to corvettes and other protective naval craft. Only the United States has a greater merchant-shipbuilding program.

"Canada has shown an astonishing power of adaptation in industrial capacity to the development of production of what is most needed in every war sphere," Sir Arthur said.

Her shipbuilding effort was "magnificent."

Emanuel Shinwell, Labor, asserted that Britain is faced with losing the supremacy of the seas to the United States after the war and that American "big business" would likely make an effort to control United States policy.

Declaring that "we can hold our own on the high seas if we get a fair chance, although unable to compete financially with America," Shinwell said.

"We are not speaking of the America of President Roosevelt or of Vice-President Henry Wallace. If we had to contend with an America of that sort our problem would be comparatively easy to solve. We are dealing with the America of big business, the America of Wall street, the America of those who believe they can use the huge reserves of the United States to adopt an investment policy all over the world and to enable their shipping facilities to respond to that policy."

Replying for the government, Philip Noel-Baker, joint parliamentary secretary to the transport ministry, said that "shipping must be an international affair." The government, he added, is ready to collaborate with like-minded governments "to establish conditions in which the shipping of the world can be efficiently and economically carried on."

The "gigantic problem" of international shipping could be solved if the United Nations would work together after the war and not set themselves up as rivals and opponents, Noel-Baker said, adding:

"The main hope for the prosperity of every merchant vessel lies in the expansion of international trade and I believe that expansion is going to come about."

"It must follow from the application of the pledges of the Atlantic Charter."

He said the United Nations had already committed themselves to the principle of collaboration and agreed to continue the control over shipping for a time after the war.

NEW ANTI-SERUM

U.S. Navy Physicians Believe It Will Prevent Influenza Outbreaks

SAN FRANCISCO.—United States navy physicians hold in their hands a new weapon—a weapon which they hope can overthrow any future outbreaks of influenza, which killed 21,000,000 throughout the world at the close of the First Great War.

The 12th naval district headquarters reported that animal experiments of its laboratory research on influenza "are sufficiently promising to warrant the expectation that application to human infection will be successful."

The new agent is an anti-serum inhaled directly into the lungs in the form of a fine mist. While it remains in the lung tissue it neutralizes any influenza virus breathed in by the patient and thus protects him against the disease, said Commander Albert Paul Krueger, director of the naval laboratory research unit which perfected the process.

The report said the serum was 90 per cent. effective for protection against influenza, and that in treatment of influenza already contracted, the anti-toxin was about 50 per cent. effective.

Army Plays Host To The Navy

Matos for the day were this sailor from H.M.C.S. "Queen," land-based training ship of the Royal Canadian Navy at Regina, Sask., and his soldier sponsor from the Canadian Army Basic Training Centre at Regina, when the land-lubbers were hosts to the seamen recently. The navy tar is Writer Murray Pierce of Portage la Prairie, Man., and his soldier buddy is Lt.-Col. Bob McMillan of Weyburn.

New Jump Tower Operating At Shilo

Two Canadian paratroopers are pictured (left) descending together in a corded parachute jump from the 266-foot steel training tower now in operation at Camp Shilo, Man., training centre for Canadian paratroops. The "chutists" sit together in a chair suspended from a parachute. This is the first stage of training on the tower. In foreground another paratrooper is being raised on one of the free arms of the tower. On reaching the top his chute will be released to permit a "free" jump exactly as from a plane.

AMERICAN NEWSPAPERS PAY
TRIBUTE TO ROSS MUNRO

American newspapers have paid a great and unsolicited tribute, not only to Canada and her fighting men, but to a young Canadian newspaperman, Ross Munro, by publishing in full under front page headlines, his graphic dispatches describing the Canadian army landings in Sicily. From the very first stroke of the Sicilian invasion, Mr. Munro went ashore with the troops.

The Canadian correspondent's detailed reports admittedly have given a better picture of the actual drive into Sicily than almost any other one of the numerous correspondents accompanying the Anglo-Canadian American forces. Obviously, Ross had made an intensive study of the new handling of such an affair ever since his epochal reports of the Dieppe show. This was reflected in the eagerness with which the metropolitan press used his stories.

In many cases, American newspapers gave front page and headline position to Mr. Munro's dispatches and accounts of the fighting. Obviously, the choice was purely one of merit; few or none of the editors knew Mr. Munro.

A good example was Tuesday morning's editions of the Baltimore Sun, one of America's most famous newspapers, with a wide circulation throughout Maryland and Virginia. The Sun picked up Mr. Munro's Monday evening account of the fighting and combined it with his Tuesday morning report, devoted almost an entire page to the young Canadian correspondent's reports.

But similar prominence, both in headlines and position, were given to Mr. Munro's accounts of the Sicilian invasion by such metropolitan newspapers as the New York Herald Tribune, the Philadelphia Inquirer, the Washington Evening Star and the widely circulated tabloid, P.M.

Canada will derive inestimable benefit and prestige in the United States from this work of one of her sons. Americans, of course, have been anxiously awaiting the day when Canadian troops would be fighting alongside their sons. It was an extremely fortunate thing for Canada that at this psychological moment, a capable Canadian correspondent was at hand to give the details in such graphic form. A million dollars wouldn't have bought it.—Ex.

W. Shaw, of the retail merchants department of Burns & Co. Limited, Calgary, was through this district as far as Fernie during the week.

A. J. Carter, of Fernie, is busy in the Kootenays in organization work connected with the Old Age Pension Association. The pensioners feel that if they are adequately organized, they will be able to bring more pressure on the government. The immediate object at this time is to persuade Ottawa to raise the pension to one dollar a day, instead of the \$20 a month. Carter is well known. He is a pioneer coal miner of the Crows' Nest Pass, working mostly in the Fernie district. For about thirteen years he was secretary of District 18 of the U. M. W. of A. He served in the Canadian Navy in the war of 1914-1918.

A serious shortage of doctors and dentists exists in Alberta.

Wendell Wilkie will contest the presidency of the United States in 1944.

Fred Cook, veteran newspaperman, and former mayor of Ottawa, died on July 16th at the ripe age of 83.

Nova Scotia's chick hatch this year is believed over the million mark, with sales up 25 per cent from last year.

Fred Beale, fireboss, and John Smith, miner, were killed by gas in the mine at Cadomin on Friday morning last.

Since the war began the "small" man in Great Britain has contributed \$5,546,000,000 in savings, which has provided 20% of the government's borrowing needs.

A sports magazine tries to tell us how to hang a deer. What we and lots of others want to know is how to hang the debt evader. Prizes are not offered for the solution, for it may not be taught in schools.

A new calf was born recently in the Morrin district of Alberta with two mouths and two tongues, and appears to be thriving well. It was shown at the Hand Hills stampede this week.

Alligator steaks are appearing on the regular menus of a Daytona Beach restaurant as a supplement to beef and pork. The steaks, served with potatoes, a green vegetable, salad and dessert, fetches \$1.00.

Many district ladies displayed an interest in the recent calf show at Cardston. First prize was won by a Mrs. Smith, who had the biggest calves. Next came Miss Arline Law, of Glenwood, and Miss Arva Lybbert. Many boys were there with their cameras.

Cardston's annual stampede and rodeo got away to a good start on Wednesday morning of last week. Hiding in the opening parade was 81-year-old Frank E. Bevans, a pioneer who landed in Alberta 63 years ago. Parade arrangements were in charge of Dr. J. A. Key.

The Associated Commercial Travelers have announced that sufficient gasoline has been made available to commercial travellers to enable them to continue calling on their country customers, thus relieving the congestion on the railways and facilitating the movement of war supplies and other commodities.

After years of endeavor, Drumheller has started on the assembling of prehistoric remains for the creating of a museum which will attract and interest tourists. The collection is to be known as the Jungling Collection of fossils and dinosaurs. The collection for the present is being stored at the Drumheller high school.

W. C. Fisher, K.C., well known Calgary sportsman, was elected president of Ducks Unlimited, Canadian, at the recent annual meeting in Calgary. Other officers are: L. H. Barkhausen, Chicago, first vice-president; W. G. Ross, K.C., M.L.A., Moose Jaw, second vice-president; O. Leigh Spencer, Vancouver (formerly of Calgary), board chairman; Morton W. Smith, Minneapolis, treasurer; J. G. Munday, Winnipeg, assistant treasurer; Stan McEwan, Winnipeg, secretary.

At a recent meeting of the Cardston Rod and Gun Club, Tom Card, chair, chairman of the fish committee, reported that in company with another official he had visited the Pincher Creek sanctuary, and that he felt more or less disappointed at what he had seen and the information he had learned. He recommended that the idea of erecting a rearing pond on the Jean McCarthy property be not proceeded with on account of the fact that the stocking of the Waterford river was part of the Pincher Creek project. It has been decided by the Cardston club, however, to investigate the matter thoroughly, with the possibility of erection of a rearing pond adjacent to the Cardston Lions' Club park.

Kimberley sent \$1,047 to the Greek War Relief, having over-subscribed their quota by \$47.

Coleman Elks will hold their annual outing and picnic on Sunday next at the Scout camp.

Considerable damage has resulted to railway bridges and other properties by recent heavy rains in Nova Scotia.

Some good catches of fish were brought in from the North Fork on Sunday evening. The river is reported quite low.

Bruno Fabro has been elected treasurer of the Knights of Columbus at Kimberley, with B. Rinaldi a member of the trustee board.

Dick Shone, of Coleman, suffered severe injuries from a fall while on a recent fishing trip with Bill Cole, Percy Lecher and James Fisher.

Coleman was leading in the Pas drive for sale of war savings stamp; last week end, with Blairmore second and Bellevue-Hillcrest a very close third.

Plyffer, the park superintendent's prize saddle mare, spent Saturday last with its four feet lodged in four rails containing oil, getting supplied up for the Castle River Stampede.

Enroute from Chapman Camp to Blairmore and Calgary during Stampede week, Mrs. A. Shearer and son George stopped over in Fernie, where George participated in First Aid competitions.

QUANTITY OF MONEY and volume of credit are matters of high national monetary policy.

Canada's Chartered Banks exist to perform two main services:

1. They receive the savings and other funds of the public, who thus build up bank balances in the form of savings and current accounts.
2. They advance short term loans to persons or enterprises needing money and able to repay within a stated period.

Along with these main functions the banks, through more than 3,000 branches and sub-agencies, render a large number of other important services related to local and national needs—services which have greatly increased as a result of the war.

But the quantity of money in

existence in the country at any given time, and the volume of credit, are matters of high national monetary policy. The nation's own central bank, the Bank of Canada, determines them. The Bank of Canada makes extensive use of the Chartered Banks' facilities in giving effect to these policies.

The Chartered Banks' responsibility, clearly established and regulated by the Bank Act, is in the realm of commercial banking—that is, to receive deposits and to serve the needs of trade and industry.

EIGHT RULES FOR FOREST
FIRE PREVENTION

While they may not be necessitated in the Crows' Nest Pass up till now, the following suggestions are timely:

Be sure your match is out. Break it in two before you throw it away.

Smoke only while stopping in a safe place, clear of all inflammable materials, never while travelling in the woods.

Be sure that pipe ashes and cigarette butts are dead before throwing them away. Never throw them into brush, leaves or needles. Never throw pipe ashes or cigar or cigarette butts from an automobile; use an ash tray.

Before building a fire, scrape away all inflammable material from a spot five or more feet in diameter. Build your camp fire in the corner, keep your fire small, and never build it against trees, logs or brush.

Never break camp until your fire is out—dead out. Always leave a clean camp.

Stir the coals while soaking them with water. Turn small sticks and trench both sides. Wet the ground around the fire, and be sure the last spark is dead.

Never burn slash or brush in windy weather, or while there is the slightest danger that the fire will get away.

Extinguish any small fires you can and report other soon as possible to the nearest ranger, fire warden, or the telephone central.

George wants to know why the Frank Like aerodrome should be placed as far away as High River.

Without a pair of weighing scales you can determine fairly accurately the weight of a fish in the following manner: Multiply its length by the square of its girth. For example, a trout measuring 26 inches in length and 20 inches in girth would weigh about 13 pounds. But, do not waste time on a 4-inch fish.

Editors Alfred Roy, 47, for 24 years editor-in-chief of the French language weekly, L'Evangeline, and his assistant, J. Thomas LeBlanc, 43, passed away suddenly at Moncton, New Brunswick, last week, both deaths due to heart failure, which is liable to happen any editor more than any other creature on God's earth.

In connection with the Red Cross, Geneva cables under date of June 9 that all letters for airforce prisoners in Germany should be addressed Stalag Luft 3, with addition in brackets of camp where prisoner is actually interned. This does not apply to parcels, which should be sent direct to the prisoner's known address. All prisoners in Ofag 21-B have been transferred to Stalag Luft 3.

NOTICE TO LANDLORDS

Whenever you make a new lease, or renew a lease, whether in writing or an oral agreement, involving a change of tenant, a change in rental, or a change in the services or accommodation to be supplied,

You are required, at the same time, by Order No. 108 of The Wartime Prices and Trade Board, to give the tenant a signed statement, using a printed form (R.C. 40) supplied by the Wartime Prices and Trade Board. This statement must show the maximum rental for the accommodation concerned, and other information prescribed.

You are also required, within ten days, to forward a signed copy of this statement to the nearest Regional Rentals Administration Office.

Penalties are provided for failure to comply with this Order.

These forms are available at all offices of The Wartime Prices and Trade Board.

Rentals Administration

THE WARTIME PRICES AND TRADE BOARD

Mrs. William Ross, of Crows' Nest, was a visitor during the week with Mrs. P. Chardon.

James Gray, who has been stationed with the Veterans Guard, is back to his old job in the Blairmore mine.

Sandy Ferguson, who teaches at Del Bonita, is home for the summer vacation, which lasts till September the 30th.

Mr. and Mrs. Walter North are up from the Pacific coast on a visit to relatives and friends in Blairmore. Both are looking well.

By the middle of November last, Britain had sent to Russia equipment for 20 armoured divisions on the German scale.

Twenty-five years ago, Capt. Joseph Grafton, who went overseas with the 192nd Crows' Nest Pass Battalion, returned to Alberta from France.

Shrubbery growth on Blairmore's boulevard was suspended on Wednesday to permit the superintendent to attend the Castle River Stampede.

Mrs. Mary Elizabeth Willis, 83, passed away at her home in Cochrane on Tuesday. She is survived by four daughters and one son. Mrs. Norman Bowman, of Natal, is a daughter.

Mr. and Mrs. James Logan, junior, and young daughter Jacqueline, of Cranbrook, have been holiday visitors in Vancouver with Mrs. Logan's parents, Mr. and Mrs. G. A. Passmore.

The Coast Construction Company, of Vancouver, has been awarded the \$6,500,000 contract for construction of the new airport near Edmonton and improvement of the present airport there.

On Saturday last, Walter Hall, of the Cranbrook electrical department, retired on superannuation, terminating twenty years of service with the city. He moved to Cranbrook from Coleman in 1923.

A business man thought his staff rather lazy and indifferent, so he pinned up the following notice: "Beard is the staff of life, but that is no reason why the life of our staff should be one continual loaf."

The marriage of Hilma Mary, eldest daughter of the late Mr. and Mrs. J. Suleta, to Corporal Reginald Teasdale, son of Mr. and Mrs. H. Teasdale, of Red Deer, took place at Red Deer on July 5th.

Down in Chicago, Helen Nicol, clever member of the Kenosha pitching staff, who hails from Calgary, leads Canadian hurlers in the All-American Girls' Softball Glamour League, with twelve victories against six defeats. Helen pitched for Edmonton last season.

Written specially for the weekly newspapers of Canada

By Jim Greenblatt

Who'd ever thought R. Research experts of the department of agriculture, although mum on the subject yet, are working on the production of rubber, resins and a superior kapok from species of the lowly milk weed. A group have returned here from the USA, where they conferred with experts on progress made there along the same line. It appears it's getting into the post-experimental stage because I hear they are even working on harvesting methods and machinery to make the once-pest get to work for the war-effort.

Members tell us the present long-drawn out session, which started in January, will probably wind up by the end of this month. The closely-printed official report of the House of Commons already runs well over 4,000 pages. Which brings up press comment that the four federal bye-elections will be a serious test of public opinion; may influence the government's decision re a general election, though there is no official peep about such a possibility. Ontario election: editors in the province showing definite party tendencies, but all agreeing there should be no apathy by the voters.

"Tl-General 1942" income tax form was a national headache. C. Fraser Elliott, commissioner for income tax, told accountants here at the height of the mob scene, he had hopes for simplified income tax legislation in 1944 and with it a form that doesn't take a hopped-up chartered accountant to solve.

Probably more CWAC's, etc., in Ottawa than any other single place. My observation here is that Canada can be proud of them. From what I've seen in the capital, their bearing, conduct and deportment on the whole is excellent. It could be that some civilian women do not set the same standard.

Come prepared. Probably tradition, but lady visitors to the House of Commons galleries without a hat have to spread a kerchief or piece of kleenex over their heads before entering the august presence. Men, of course, uncover. Seems—and sometimes looks—a little silly.

Directed toward greater efficiency in manpower allocation, it is announced here that a representative of National Selective Service will be located at army reception centres to interview rejected applicants for enlistment. If sympathetically handled, in my opinion, this should help to put more round pegs in round holes of the agricultural and industrial war effort.

1941 census figures show that 82.5 per cent of the population of Canada was born in this country, as against 77.9 in 1931. Of the 11,506,655 total, about 8.7 per cent were from British countries, mainly the British Isles; European 3.7, United States 2.7, Asia born only 0.4 per cent.

Farmettes by Gardiner (agriculture): Movement of coarse grains to eastern provinces for feeding will double 1942 figures, and probably reach 100 million bushels. Government pays cost of freight from Fort William west, thus they buy at Fort William prices. He also said the reason there will be no subsidy on corn this year is because fertilizer is short, has to

be distributed largely in connection with grass and other grain crops.

Widely quoted in the press was an article on political union with the USA, appearing in London Free Press. In brief, it opposed union, because "the British system is best; there is greater respect for law and order under it; there is a greater future under the British Commonwealth of Nations than becoming the 49th state in the union."

The Prices Board, has granted an increase of two-thirds of a cent a dozen of clothes pins. Doesn't seem much, but what does it mean to Canadian housewives? Curious, I checked—found they use annually around one million 320 thousand gross or over 190 million pins to hang out the wash.

Most of the old hens of this district are wondering just how inlaid linoleum is made.

Jerry wants to know why it is that great freight ships always lean somewhat to port.

"Be kind to our help," says a restaurant sign. "They're a darn sight harder to get than customers."

A man was asked why he called his home The Cloisters. "Well," he replied, "we're cloister the trans, cloister the train and cloister the synagogue."

"And please return this book. You may think this a strange request, but I find that many of my friends are poor mathematicians; they nearly all are good bookkeepers." — Sir Walter Scott.

A bishop attended a banquet, and a clumsy waiter dropped a plate of hot soup in his lap. The clergyman glanced around with a look of agony and exclaimed: "Will some layman say something appropriate?"

The most unkindest cut of all for New Englanders was when the democratic native blueberry became an aristocrat and refused to enter the shops, plump box of anyone less than a 59¢-a-week shipbuilders' wife.—Christian Science Monitor.

Word was received of the passing on Sunday of Mrs. J. Backman at Merritt, B.C., sister of Mrs. H. Pinkney and F. Gavelin. Mrs. Pinkney was called to Merritt about a month ago, remaining with her sister until the end.

Blairmore had a visit during the week from C. Chatfield, of Winnipeg, representative of the Montreal Standard, grandson of the late Mr. and Mrs. Chatfield, residents of Frank in the early days, where Mr. Chatfield, senior, conducted a watchmaking and jewelry business.

The twenty-five members of Turtle Mountain Squadron No. 157 of the Air Cadets of Canada returned from their ten days' camp at Claresholm on Tuesday evening by special bus. We understand that a group from Coleman left by the same bus on Wednesday morning for a similar ten days training in camp.

If there were any doubts about the value of a powerful navy, they must have been dispelled when the Allies were able to move more than two thousand ships across the Mediterranean under the very noses of the enemy. Air power had to be used, too, but only the fear of the big guns of His Majesty's ships made it possible to get down the chimney, even without his load. Then the summer was spent trying to catch birds by putting salt on their tails. Eventually the Santa Claus trouble cleared up, but to this day he has never caught a bird with the salt. The closest call he ever had was when the stock arrived, but that happened just at a time when he was out of salt.

The HEIR APPARENT

MEET THE HEIR APPARENT to the thrilling new world of to-morrow... the world he will help to build.

Already he's learning to stand on his own feet, a young man with ideas; self-reliant, courageous, ready to carve out a future by his own personal efforts.

Many of these young men of to-morrow—future leaders—already have accounts of their own at the Royal Bank. They have spare-time jobs, work hard and save some of their money for the day when opportunity will beckon. Theirs is the spirit that has made this country great. It is the spirit that will build a Canada worthy of her future.

What is PRIVATE ENTERPRISE?

It is the natural desire to make your own way, as far as your ability will take you; an instinct that has brought to this continent the highest standard of life enjoyed by any people on earth. It is the spirit of democracy on the march...

THE ROYAL BANK OF CANADA

BLAIRMORE BRANCH : J. B. WILSON, Manager
BELLEVUE BRANCH : W. INNES, Manager

SOLDIER of the SOIL

THIS year the Canadian Farmer urgently needs help. He needs your help to produce the food so necessary for victory. Many thousands of farm workers are serving in the Forces, so that the farmer—the Soldier of the Soil—is short-handed, but short-handed as he is, he is called upon to produce more food than ever before. Food is one of the most powerful weapons of war. Grains, bacon, dairy products, eggs, beef, fruit, vegetables—FOOD to feed our armies, our allies and our people we must have.

WHAT CAN YOU DO?

You may be a school teacher, student, business or professional man, an office or store clerk—no matter what you are, if you have a few hours, days, weeks, or months of free time this summer, you can do your country and the farmer a great and patriotic service by helping out on the farm. You may be inexperienced, but you still can help. You will find work on the farm healthy and congenial. It will give you the satisfaction of feeling that you have brought Victory nearer.

What you should do NOW!

Consult any special local committee or office established to deal with farm labour placements in your city or town; or Write the Director of the Dominion-Provincial Farm Labour Program at the Capital of your province; or Get in touch with your nearest Employment and Selective Service Office.

Health

LEAGUE presents TOPICS OF VITAL INTEREST

DROWNING ACCIDENTS

Many persons apparently dead as result of drowning can be revived by artificial respiration, even after immersion in water for periods of up to one-half hour, the Health League of Canada reiterates as reports of water accidents come in from all parts of Canada.

Drowning accidents take hundreds of lives in Canada every year and many could be saved by prolonged artificial respiration. There are numerous instances on record where persistence has reclaimed accident victims who to all appearances were beyond aid, the league says. Artificial respiration by the Schaeffer method should be continued as long as six hours or even longer, until the victim's body stiffens in rigor mortis. This applies not only in cases of electric shock and poisoning with gas fumes but also in drowning accidents.

The artificial respiration should be started as soon as the victim is recovered from the water and continued without interruption at the scene of the accident until the victim has been restored or until the rescuers are positive life is extinct. There have been instances where people have been revived even after they were pronounced dead. First signs of life are frequently not observed for a long time. In a case of electrical shock in Windsor, Ont., artificial respiration was kept up for eight hours before there was any sign of life.

In drowning accidents it is essential to keep the body warm by means of blankets and hot water bottles. In the Schaeffer method, the accident victim is placed prone on his stomach, with the head turned to the right side. The rescuer kneels astride the body and applies pressure rhythmically to the back in the region of the lungs.

In a considerable number of cases spasm of the larynx prevents air getting through to the lungs, making artificial respiration efforts not only useless but actually harmful. Rescuers should make sure that air is getting through to the lungs. The tongue should be drawn out by means of a tongue forcep, if available.

Instruction in resuscitation methods should be given more generally, the Health League states. It warns against people, even strong swimmers, bathing alone.

TROOP CARRIERS

Preparations for the landing of troops in North Africa involved alteration to over 300 ordinary merchant ships for use as troop carriers, floating work-shops, etc., all of which was completed in a short time and in the utmost secrecy.

PAPER FROM SALVAGE

In the year that war broke out Britain imported more than 1,850,000 tons of paper-making materials. Today her imports are negligible and paper is being made from salvaged paper and sometimes from cotton rags.

By the middle of November 1942, Britain had sent to Russia equipment for 20 armored divisions on the German scale.

MICKIE SAYS—

FOLKS, ALL NEWSPAPERS HAVE 'TH' SAME RULE WHEN SENDIN' PIECES TO PUBLISH, PUT YOUR NAME AT 'TH' BOTTOM, SO WE'LL KNOW WHERE THEY COME FROM PLEASE

WORLD HAPPENINGS BRIEFLY TOLD

An army sergeant in Yorkshire has received from his soldier-brother in the Far East a "post card" written on an army biscuit.

The U.S. treasury department borrowed a Canadian slogan for the third American war loan drive. U.S. used "Back the attack—with war bonds."

Bromhall reports the exportable surplus of wheat remaining in the Argentine at 251,605,000 bushels, as compared with 191,377,000 bushels at the same time last year.

Croatian Partisans have formed their own legislature for the administration of territory which they hold, according to reports reaching Yugoslav circles in Switzerland.

The gun crew on the Queen Empress, a former pleasure steamship, destroyed a German plane approaching the east coast of Britain. The vessel plied between the Broomfield and coast resorts on the Clyde before the war.

Chao-Ying Shih, Chinese consul general in Vancouver since April, 1942, has been appointed consul general of the Republic of China in Johannesburg, South Africa.

The foreign office has named Sir Cecil Hurst, a leading British authority on international law, as British member of the United Nations commission for the investigation of war crimes.

Britain's unimpaired air raid sirens are to remain, the government having turned down suggestions that some sound a little earlier on the ear than the present unmelodic notes, be used.

SHEEP NEED SALT

Salt is necessary for sheep all the year round. Records indicate that they each eat about one-quarter of salt per day, if they can get it. They do not obtain enough salt when it is supplied in block form. All stock salt should contain iodine. If iodized salt is not procurable, potassium iodide should be added.

CHANCE FOR JOCKERS

New Zealand jokers had their chance when it was announced that a water shortage made it necessary for daymen in the Manawatu district to send their cans filled with milk to the creamery in the morning and have them returned filled with water at night.

Buy War Savings Stamps regularly.

THIS CURIOUS WORLD

By William Ferguson

ANSWER: Weather denotes a single occurrence in the series of conditions which make up climate. The climate of a place is its average weather.

REG'AR FELLERS—No Hurry, Pinhead

How The Baby Has Grown

Just 25 years ago, when air mail began in Canada with a flight made by Capt. Brian Peck, between Montreal and Toronto, the total load was 124 letters. Today, Trans-Canada Air Lines carries nearly half a million letters in one day. In five years, T.C.A. planes carried more than five and a half million pounds of mail, which, at the Post Office estimate of fifty letters to the pound, works out to more than 275,000,000 letters. Women do much of the cargo handling, replacing men on active service.

Should Not Complain

City Of Essen Deserves Bombing It Has Been Getting

Essen has the distinction of being the most bombed city in the world. There is something more than poetic justice in this circumstance. If there is any truth in the aphorism that he who lives by the sword shall perish by the sword, Essen has a lot of bombing coming to it yet. There is no city in the world which has devoted itself to war and destruction as Essen has done. As the home of the Krupp armament works it has been the very centre of Germany's preparations for aggression against her neighbors, both in this war and in the previous one. The city which has devoted itself so wholeheartedly to the worship of Mars for generations has no cause for complaint if those who have made it their aim to drive Mars from the earth concentrate upon the city's destruction.—Vancouver Province.

SUNDAY SCHOOL LESSON

JULY 25

BIBLE TEACHINGS ON THE COST OF DRINKING

Golden text: Know ye not that the unrighteous shall not inherit the kingdom of God? I Corinthians 6:9. Lesson: Deuteronomy 21:18-21; Proverbs 23:20, 21; I Corinthians 6:9-11. Devotional Reading: Psalm 37:1-11.

Explanations and Comments

The Punishment to Be Meted Out To An Incurable, Drunken Son, Deuteronomy 21:18-21. A man whose son is stubborn and rebellious and disobedient, whom no chastening will profit, shall be brought by his parents to the elders of the city to their place of judgment, and denounced as a stubborn, rebellious, disobedient, a glutton and a drunkard. Their formal word of accusation was sufficient, no other witness was required, but the parents must be agreed. Thereupon the elders shall stone him to death. "The state is regarded as having an interest in the proper upbringing of children, that as exercising its authority when that of the parents is powerless. So shall the evil be put away, and all Israel shall hear and fear. There is no instance on record of this penalty having been carried out. The Drunkard and the Glutton Shall Come to Poverty, Proverbs 23:20, 21.

The Unrighteous Shall Not Inherit the Kingdom of God, I Corinthians 6:9-11. At Corinth, the wealthy capital of the Roman Province of Achaia, or Greece, Paul had labored for 18 months, preaching first to the Jews and then to the Gentiles. Seven years later, while at Ephesus on his third missionary journey, he wrote to the church he had founded there, this letter which we call First Corinthians. The unrighteous shall have no share in the present privileges and future blessings of the kingdom of God, he told them in our excerpt from the sixth chapter of that letter. "The kingdom of God is a spiritual kingdom (Jn. 18:35); its blessings and privileges are special; how then could such unspiritual men as those enumerated, whose conduct tended to harden the heart and dull the spiritual insight, have any part in it?" (Dummelow).

Such evil-doers were some of you, Paul added to his friends, but you submitted to baptisms, you were set apart for God's service, and were accepted as righteous through the influence of the Lord Jesus and the working of the Holy Spirit. Reformation is possible.

STEEL HELMET

Col. Malcolm C. Grow, chief surgeon of the United States army 8th Air Force, has added a steel helmet to the "flak vest" he developed for the protection of Allied fliers, U.S. army headquarters disclosed in Britain in announcing that he has been awarded the Order of the Legion of Merit.

In Allied Service

Nine Jap Power Barges Were Salvaged By Australian Engineers

Nine Japanese power barges sunk at Milne Bay, Papua, have been salvaged by Australian engineers. Each weighs 25 tons and is worth \$15,000. The barges were sunk by air strafing or demolition charges 50 yards off the beach in 35 to 75 feet of water.

A diver fastened steel cables to their sides and they were raised off the sea bed with a pile-driver used in reverse. The lines were then tightened until each barge hung, in a cradle under water suspended between two pontoons.

Then the pontoons were towed half a mile to sheltered water and worked ashore. Then an army truck was anchored between two coconut palms and the power winch heaved the barges to the beach.

The engines were reconditioned and the barges again sail the blue inland waters, but in the opposite direction.—Australian Press Union.

Guarding The Coast

The Danger Of An Attack On West Coast Is Reduced

Airbases and other air travel facilities now established in British Columbia will play an important factor in the Pacific conflict, Air Vice-Marshal L. P. Stevenson, air officer commanding, western air command, told the New Westminster Board of Trade.

"There was a time in the past when the Japs could have raised hell, but the danger of attack has certainly diminished," he said in an address. He said an attack by a fast-raiding force was possible but not probable.

Air Vice-Marshal Stevenson said that when peace came airbases established on the west coast might be utilized as terminals for civilian air routes.

Ancient Egyptians are believed to have brought the art of tanning leather to a high state of perfection.

Sheriff,
Court House,
Edmonton, Alberta.

July 16-23-30

James Hartley, M.L.A., has been appointed deputy mayor of Macleod.

Murray Drysdale, Stephen Hicks, son of A. Z. Hicks, of Okotoks, is reported missing in action overseas.

Alberta Masons have donated another \$5,000 to the Navy League for its work on behalf of merchant seamen.

In an exhibition baseball game in Blairmore on Sunday evening, Natal Michel eked out winner over Blairmore 6-5.

A party of two climbed to the summit of the ski-way on Sunday afternoon, making it in one hour. The return trip occupied 25 minutes.

Some pretty good catches of fish were taken from the Old Man river east of Lundbreck Falls on Sunday, ranging in size from 8 to 48 inches.

The exterior of St. Luke's Anglican church was this week treated to a much needed coat of paint. The volunteer workers included Rev. J. R. Hague himself.

D. A. Howe accompanied the Elks party to Calgary on Sunday, where he spent a couple of days with his daughter, Thelma, who is under medical care. Gus returned home on Tuesday night's train.

At the annual meeting of the Alberta Elks' Association in Calgary on Tuesday evening, W. D. Smart, of Calgary, was elected to succeed R. C. Old, of Blairmore, as president. Wilfrid Dutil, of Coleman, was installed as tyler.

Dr. R. F. Stewart, who has been with the army for the past couple of years or more, returned by Tuesday night's train from the Pacific coast. He immediately takes over his former medical practice here, and his many friends are glad to see him back.

Matthew Popovich, 53, prominent Ukrainian Communist, died suddenly in Grimsby, Ontario, on Saturday. In 1931 he and Yin Buck were sentenced to five years in Kingston penitentiary as members of an unlawful Communist organization. He was released three years later.

Mrs. W. McInnis returned to Bellevue this week from a two months' visit to her old home in Nova Scotia. Enroute she stopped off at Kingston, Ontario, where she visited with her daughter, Mrs. McGregor (Benny) and Mr. McGregor. It is 27 years since Mrs. McInnis came west and this is her first visit home in that time.

Local and General Items

The Editor will be glad to receive items for this section, regarding visitors entertained, parties leaving for holidays or short trips, bridge parties, teas, showers, presentations, anniversaries, etc. Phone items in to 31 or hand them in at The Enterprise office not later than Thursday evenings.

Even when a squirrel is ripe, don't pick it.

Canada's first hospital ship is in the Mediterranean.

Charles R. C. Swayne, 63, editor-in-chief of the Victoria (B.C.) Colonist, died Monday night.

The object of a curling club newly organized at Brownville, Alberta, is curling. Strange, isn't it?

A brand new daughter arrived to Mr. and Mrs. Milton H. Congdon, of Blairmore, last week end.

Martinique's automobiles are running freely on a mixture of 10 per cent gasoline and 90 per cent rum.

At the outbreak of war, Britain had 25,000 tractors for agricultural work. Today there are about 125,000 in use.

Mr. and Mrs. Alphonse Fabro were down from Kimberley over the week end on a visit to the latter's mother and sister, Mrs. Pozzi and Mrs. Cyrus Fabro.

Boy Scouts at Fort Francis, Ontario, have been aiding the war effort by collecting bottle caps. In their first drive they collected 520 pounds, or approximately 74,880 caps. All proceeds go to war charities.

The new Canadian National Railways station at Montreal took fourteen years to build. It is to be known as the New Bonaventure Station, and was projected away back in 1886. It cost in the neighborhood of \$27,300,000.

Poon Lin, 25-year-old Canadian Chinese steward of a torpedoed British freighter, who subsisted mainly on seagulls and raw fish during 133 days alone on a life raft in the South Atlantic, has been awarded the British Empire medal.

There are a number of cat-and-sleep guys in the Crows' Nest Pass who should be gathered up by military authorities and converted into something. Today they are the nearest approach to nothings and are eye-ores to the public.

Johnny Amatto, who is with the Canadian Artillery at Halifax, was a visitor at his home here for about two weeks, leaving today on the return trip. Johnny enjoys the military life down there, and hopes some day for the opportunity to go further.

The sides of some of our principal streets are adorned with grass pump-adours—very attractive, indeed. Of course, to be blamed for this largely has been the shortage of tonorial artists, one of whom was in Calgary, another somewhere and another somewhere.

In the last fiscal year Canada used nearly 37,400,000 tons of bituminous or soft coal. Slightly less than half of this amount was produced in Canada, 19,200,000 tons being imported from the United States. It is estimated that the next fiscal year, up to March 31st, 1944, Canada will require 42,000,000 tons.

It is the patriotic duty of any man who has the skill and experience to cut coal to respond to his country's call. He should report, without delay, to the nearest Employment and Selection Service office. It is a call to really vital work in the national interest—Canada's Minister of Labor, in a broadcast July 14th.

A fish rod was left at our office on Tuesday morning to await a claimant. It is of the alder variety and the shape of about seven rainbows, and is equipped with about nine yards of wrapping twine and a pin hook. The sooner it is claimed the better, as in this weather and at this season such weapons become terribly hot and are liable to ignite.

The mercury hit 106 a short while on Wednesday afternoon.

Tom Kucera, of Coleman, has been a patient in St. Eugene hospital at Cranbrook.

Public charities cost the city of Calgary \$40,476 for the six months ended June 30.

The Waterton Lakes golf tournament is to be held on August 5 and 6. The tourney is sponsored by the Cardston Golf Club.

BREAD helps keep Canadians fit

FOR PRESENT-DAY EMERGENCIES

LIFE TODAY calls for energy and vitality. And bread supplies one-fourth of the food energy of Canadians!

In fact, bread should be the basic food in the diet of every Canadian whose work calls for quick or sustained energy.

Bread is unusually rich in carbohydrates and, with its modern milk formula, is a source of protein equal to meat in muscle building and repair.

Bread tempts and satisfies your appetite—makes you more fit for present-day emergencies. Eat more of it!

YOUR BAKER'S SKILL, scientific equipment—and the finest ingredients—give you a loaf unsurpassed in wholesomeness and delicious flavor.
